Tobacco Stocks Report

as of October 1, 1955

U. S. DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

EXPLANATION OF GROUP SYMBOLS BY TYPES OF TOBACCO
FOR PURPOSES OF THE TOBACCO STOCKS REPORT

GROUPS OF FLUE-CURED
TYPES 11, 12, 13, and 14:
A-Wrappers
B-Leaf and smoking leaf
C-Cutters
X-Lugs and primings
S-Scrap
N-Nondescript

GROUPS OF FIRE-CURED
TYPES 21, 22, and 23:
A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-N-Scrap and nondescript

GROUPS OF BURLEY
TYPE 31:
B-Leaf
T-Tips
C-Lugs and cutters
X-Trash and flyings
S-Scrap
N-Nondescript

GROUPS OF SOUTHERN MARYLAND
TYPE 32:
B-Heavy leaf or dull crop
C-Thin leaf or bright crop
X-Seconds and ground leaves
S-Scrap
N-Nondescript

GROUPS OF DARK AIR-CURED
TYPES 35, 36, and 37:
A-Wrappers
B-Heavy leaf
C-Thin leaf
X-Lugs
S-N-Scrap and nondescript

GROUPS OF PENNSYLVANIA SEEDLEAF
TYPE 41:
B-Binders or tops
C-Fillers (farm wrappers)
X-Crop-run and stemming grades
Y-Farm fillers or ground leaves
S-Scrap

GROUPS OF OHIO FILLER
TYPES 42-44:
C-Fillers (farm wrappers)
X-Crop-run and stemming grades
Y-Farm fillers or ground leaves
S-Scrap

GROUPS OF PUERTO RICAN
TYPE 46:
C-Superior
X-Inferior
Y-Trashy (Rabia)
S-Scrap (Picadura)

GROUPS OF CONNECTICUT VALLEY
BROADLEAF AND HAVANA SEED
TYPES 51 and 52:
A-Wrappers
B-Binders, seconds, and brokes
C-Fillers and short darks
X-Stemming grades
S-Scrap

GROUPS OF NEW YORK AND PENNSYLVANIA
HAVANA SEED
TYPE 53:
B-Binders, seconds, and brokes
X-Crop-run and stemming grades
S-Scrap

GROUPS OF SOUTHERN AND NORTHERN
WISCONSIN
TYPES 54 and 55:
B-Binders
C-Fillers
X-Crop-run and stemming grades
S-Scrap

GROUPS OF CONNECTICUT AND GEORGIA
AND FLORIDA SHADE
TYPES 61 and 62:
A-Wrappers
B-Stout wrappers and binders
C-Fillers or tips
S-Scrap

GROUPS OF FOREIGN-GROWN CIGAR-LEAF
TYPES 81, 82, and 83:
A-Wrappers
C-Fillers
S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/

Leaf Tobacco Stocks Climb

Tobacco dealers and manufacturers in the United States and Puerto Rico held leaf tobacco inventories totaling 4,708 million pounds (farm-sales-weight) as of October 1, 1955. This is a record high level of leaf stocks as of October 1 and represents an increase of 466 million pounds compared with a year earlier. Considerably larger stocks of flue-cured and Burley types, the two major kinds of United States tobacco, accounted for most of the increase but stocks of most types were larger than a year earlier. During the third quarter, July-September, 1955, tobacco growers marketed approximately 960 million pounds, consisting mostly of flue-cured but including Maryland and some cigar tobacco. During the corresponding period last year 780 million pounds of tobacco were marketed by growers.

Holdings of cigarette tobaccos, flue-cured and Burley, were each up 12 percent and Maryland 10 percent. Stocks of fire-cured leaf were 2 percent larger and dark air-cured 7 percent. Stocks of cigar-filler leaf increased 9 percent over the level of stocks a year earlier. Holdings of the cigar-binder types were slightly lower and shade-grown stocks were about the same as the quantity on hand on October 1, 1954.

Stocks as of October 1, 1955, included about 1,074 million pounds (farm-sales-weight) of leaf tobacco under Government loans (612 million pounds on October 1, 1954). Of this total, flue-cured loan stocks were 535 million pounds, Burley 431 million, Maryland 11.0 million, fire-cured 47.9 million, dark air-cured 36.9 million, and cigar leaf 12.1 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. Tables in the body of the report show stocks on a farm-sales-weight basis; stocks in detail on a reported weight basis, subdivided according to recognized groupings; and stocks owned by dealers and manufacturers, separately. This report is issued quarterly.

CIGARETTE-LEAF STOCKS

Stocks of Flue-cured, Burley, and Maryland Show Sizable Increase

Marketing of the 1955 crop of flue-cured tobacco has been at a rather rapid pace with sales by growers totaling 934 million pounds prior to October 1 (751 million pounds last year). Stocks of flue-cured tobacco as of October 1, 1955, were 2,548 million pounds compared with 2,267 million reported on hand a year ago. However, part of this increase is accounted for by a larger volume of sales this year.

Stocks of Burley tobacco amounted to 1,348 million pounds as of October 1, 1955, for an increase of 150 million over a year ago. As indicated by changes in stocks, disappearance of Burley tobacco during the marketing year just ended (October, 1954-September, 1955) totaled 518 million pounds as compared with 530 million during the previous marketing year. Both exports and domestic usage showed slight decreases from levels of the previous year. Exports during the 1954-55 year were about 32 million pounds (34.6 million pounds the previous year) and domestic consumption was around 487 million pounds (495 million the previous year).

Maryland tobacco stocks of 84.1 million pounds represented an increase of 7.5 million pounds compared with the previous October 1. Auction sales and deliveries to the hogshead market of the 1954 crop through September have totaled about 43.5 million pounds. During the 1954-55 marketing year disappearance of Maryland tobacco was approximately 35.0 million pounds compared with 36.4 the previous year. Domestic usage was 27.0 million pounds (28.4 the previous year) and exports were 8.0 million (the same as the previous year).

Foreign-grown cigarette leaf stocks (Turkish and other) of 153.5 million pounds on October 1, 1955, were slightly larger than for the previous October 1 although down considerably compared with July 1 stocks.

DARK TOBACCO STOCKS

Fire-cured and Dark Air-cured Stocks Above Levels of Year Ago

Holdings of fire-cured leaf by dealers and manufacturers totaled 137.2 million pounds on October 1, 1955--an increase of 3.2 million from a year earlier. Larger stocks of Type 23 accounted for most of the increase. Virginia fire-cured stocks were reported as 26.6 million pounds, Eastern District Kentucky and Tennessee fire-cured 84.7 million, and Western District 25.8 million. Disappearance of fire-cured tobacco for the 1954-55 marketing year totaled 59 million pounds, a slight decrease compared with previous years. About one-half of the disappearance was accounted for by exports.

Dark air-cured tobacco stocks of 80.9 million pounds were at the highest level as of October 1 in several years. This level of stocks represents a 5.1 million pound increase from a year earlier with increases about proportionally between the types. Dark air-cured tobacco stocks by types as of October 1, 1955, were: One Sucker 48.3 million pounds, Green River 28.5 million, and Virginia sun-cured 4.1 million. Disappearance of dark air-cured of 29.5 million pounds was about the same as during the previous marketing year. A higher level of exports of about 10 million pounds (7.1 million the previous year) was offset by a decrease in domestic consumption.

CIGAR LEAF STOCKS

Cigar Filler Stocks Show Increase, Binder Slightly Lower, and Shade-grown Same as Year Ago

Holdings by dealers and manufacturers of domestic cigar leaf tobaccos including Puerto Rican totaled 333.7 million pounds (farm-sales-weight) as of October 1, 1955, compared with 320.6 million a year earlier. Stocks of foreign-grown cigar leaf of 18.1 million pounds (unstemmed equivalent) were 1 million pounds larger than on last October 1.

Carry-over stocks of cigar-filler leaf were higher this October 1, reversing the downward trend of the past several years. Stocks of the filler types as of October 1 were 194.8 million pounds, which represented a sizable increase from the 179.0 million on hand a year earlier. Larger stocks of Types 41 and 46 made up the increase. Stocks of Pennsylvania Seedleaf were 112.9 million pounds, Ohio Filler 22.9 million, and Puerto Rican filler 58.9 million. Disappearance of the filler types for the 1954-55 marketing year decreased from the previous year's level.

The downward trend in the level of cigar-binder stocks continued this October 1 although the decrease from the previous year's level was relatively small. Holdings of binder leaf this October 1 totaled 116.9 million pounds compared with 119.8 million a year earlier. Connecticut Valley Broadleaf stocks this October 1 were 33.0 million pounds, Connecticut Valley Havana Seed 23.3 million, New York and Pennsylvania Havana Seed 0.8 million, Southern Wisconsin 29.0 million, and Northern Wisconsin 30.9 million. Disappearance of binder leaf during the 1954-55 marketing year of 50.7 million pounds was down slightly from the previous year's level (52.7 million pounds).

Shade-grown stocks of 22.0 million pounds were approximately the same as on hand a year earlier. Part of the 1955 crop was in stocks as of October 1. Holdings of Connecticut Valley Seed were 12.4 million pounds and Georgia-Florida Shade 9.6 million.

Stocks of Cuban leaf (Havana) of 16.8 million pounds were 1.7 million larger than on the corresponding date a year earlier. Philippine Islands (Manila) holdings were only 0.9 million pounds (1.7 million a year ago) and Sumatra and Java stocks were 0.3 million (0.4 million a year earlier).

TABLE 1.--*Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco*[1]

SOUTHERN TYPES (11-37)

Type	Type No.	Yield realized from farm-sales weight to—					Stemming		Factors used to multiply by to convert reported stocks of

[1]Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. [2]Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating and storage. [3]See footnote 1 on page 5 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. [4]Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.-Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, October 1, 1955, compared with other quarters 1/

1/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, nsmely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for October 1, 1955 are as follows: Type 41, 108; Types 42-44, 114; Type 51, 105; Type 52, 106; Type 53, 109; Type 54, 104; Type 55, 105; Type 61, 109; Type 62, 109. October 1, 1955, figures subject to revision.

2/ For explanation of stocks included in this classification, see footnote 4 on page 14.

3/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

* Revisions in July 1, 1955 report.

Total	153,548	-	153,548	149,423	-	149,423	172,519*	-	172,519*

TYPES 11-90 - TOTAL ALL TYPES

Total	2,496,996	1,341,642	3,838,638	2,172,231	1,270,434	3,442,665	2,314,256*	1,272,449*	3,586,705*

1/ Subject to revision.
2/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
3/ Includes Puerto Rican on the Island, Type 46.
4/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.
5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in July 1 report.

Table 5.-Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers October 1, 1955, compared with October 1, 1954 1/

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

2/ The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. The table should therefore be considered as representing only the approximate quantities owned respectively by dealers and manufacturers.

3/ Includes stocks on the Island of Puerto Rico.

4/ For explanation of stocks included in this classification see footnote 4 on page 14.

5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

Table 6.-Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, October 1, 1955, compared with other quarters 1/

1/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1954, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

2/ Subject to revision.

3/ For explanation of stocks included in this classification see footnote 4 on page 14.

4/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in July 1, 1955 report.
